## **NEW TEST FOR PROVING ENHANCED DAMAGES FOR WILLFUL PATENT INFRINGEMENT**

Recently in the case *Halo Electronics Inc. v. Pulse Electronics Inc.*, the U.S. Supreme Court lowered the standard and changed the test for proving enhanced damages for willful patent infringement. To learn more about the changes, new standard and test click [HERE](#).

*"I would like to rate my experience with The Plus IP Firm, particularly with Mr. Derek Fahey and his assistant Ms. Jill McRitchie, as first class. As a foreigner, attempting to do business in the US, the Team exuded professionalism and patience and provided me with information and solutions to make my way forward. This was extremely important to me because the US way of business is a bit different and new to me. I will keep on recommending Mr. Fahey and his team to my friends and family. Thank you Derek!" - Gabriela, a satisfied client.*

Derek Fahey is a patent attorney at The Plus IP Firm. The Plus IP Firm helps businesses and inventors protect their ideas, concepts and creations with patents, trademarks and copyrights.
